Mr. Little, good afternoon and Happy New Year. I hope things are okay with you. We did go back out in May/June 2014 and caught a few more crawfish around Devil Swamp Lake to use in the Human Health (HHRA) and Ecological Risk (ERA) Assessments. We recently submitted a draft Tier 2 RI Report including the HHRA and ERA on December 19, 2014 for review and comments. The next step would be to respond to any review comments. We would then finalize the Tier 2 RI Report once the review comments are adequately addressed. Not sure of the exact timing, but would anticipate this year (2015). I hope this brief update helps gives you an idea of the project status. Please do not hesitate to contact me if you need more details or wish to discuss further. Thanks.

John;
Hello, just wanted to touch base and see how everything is going with you. I know we had trouble with the crawfish sampling and hope we can get moving forward again this year. I don't think I will ever get used to how long it takes to get things done. I haven't spoken with the Alsen Community in a while and was wondering if you have heard anything from them recently. I hope everything is well with you and look forward to working with you again this year.
Respectfully;
Bill
